

For domestic and commercial use

Helvetia

Protective Filter

The JUDO HELVETIA protective filter is a cartridge filter for drinking water systems. It protects domestic water installations against rust, lime and sand particles.

The advantages

- ◆ Stainless steel filter cloth
- ◆ Degree of soiling is clearly visible
- ◆ Double filter insert with 210 cm² filter surface
- ◆ Very compact design
- ◆ High water flow rate
- ◆ Made in Germany

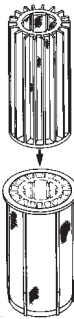

The problem

Sand, rust and dirt particles damage and block sanitary installations such as water pipes, fittings, boilers, showers, etc. This leads to corrosion, pipe bursts and expensive repairs.

The solution: HELVETIA from JUDO. The Helvetia proves that the widespread candle filter technique could be improved.

Advantage of the double filter

insert

The 10 cm long filter insert is really twice as long as it consists of two individual filters pushed into each other. The inflowing water is simultaneously passed through the inner and outer individual filter.

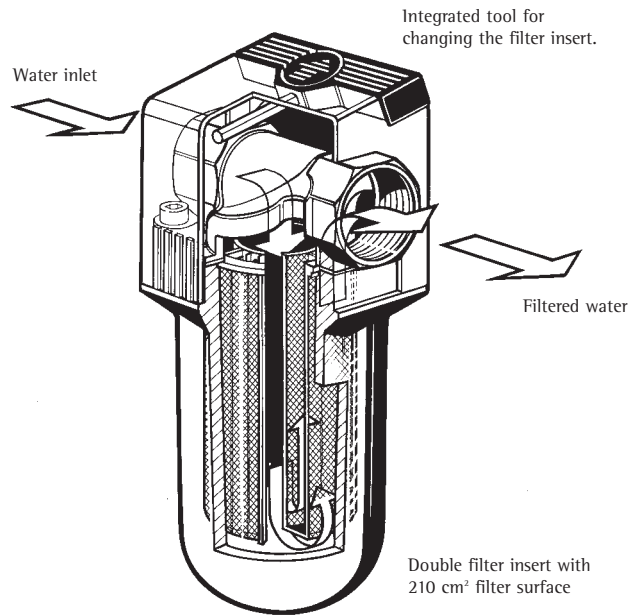

Universal use

Private house, flat, holiday home, holiday flat, protects technical equipment.
